**Voodoo River** Robert Crais 2013-07-16 Elvis Cole finds himself deep in the bayou of Louisiana searching for the estranged parents of a television star -- but something deadly is looking for him. L.A. private eye Elvis Cole is hired by popular television star Jodie Taylor to delve into her past and identify the biological parents who gave her up for adoption thirty-six years before. Cole's assignment is to find out their biological history and report back. It seems all too clear cut. But when he gets to Louisiana and begins his search, he finds that there's something much darker going on. Other people are also looking for Taylor's parents, and some are ending up dead. And when Cole realizes that his employer knew more than she was telling, Voodoo River becomes a twisting tale of identity, secrets, and murder.

*Mission Jupiter* Daniel Fischer 2001-06-28 In this exciting story of the Galileo mission to investigate Jupiter, noted astronomer Daniel Fischer weaves together the many disparate facts learned about this most fascinating planet and its satellites. Fischer tells the entire story of Galileo: a behind-the-scenes look at its difficult course from idea to reality; its launch; the problems it encountered early on and how these were resolved; and finally, what will become of the probe. Along the way, the author describes what we have learned about Jupiter, including what the Jovian atmosphere is really like, and the peculiar reality of the planets magnetic field. The story of the journey to Jupiter is combined with interesting details about Galileos capacities and a graphic description of the solar system, with an episode on how Galileo would judge the chances of finding life on Earth. The book concludes with a look at the future, closing on the Cassini probe to Saturn. Beautifully illustrated and well written, Mission Jupiter shows us space exploration at its best and clearly and vividly conveys the essential science.

**Sick** Tom Leveen 2013-10-01 Brian and his friends are not part of the cool crowd. They're the misfits and the troublemakers—the ones who jump their high school's fence to skip class regularly. So when a deadly virus breaks out, they're the only ones with a chance of surviving. The virus turns Brian's classmates and teachers into bloodthirsty attackers who don't die easily. The whole school goes on lockdown, but Brian and his best friend, Chad, are safe (and stuck) in the theater department—far from Brian's sister, Kenzie, and his ex-girlfriend with a panic attack problem, Laura. Brian and Chad, along with some of the theater kids Brian had never given the time of day before, decide to find the girls and bring them to the safety of the theater. But it won't be easy, and it will test everything they thought they knew about themselves and their classmates. Praise for SICK "The gore and action will leave enthralled readers thrilled and then sated with each kill on either side." —Booklist "Between the pacing and the heroes' salty, blue language (full of lovingly creative, genital-inspired insults), reluctant readers who love zombies will devour it, right up to the abrupt end." —Kirkus Reviews "Sick is well written, with great detail, even if it is a little gory." —VOYA Magazine Awards 2014 Quick Picks for Reluctant Young Readers list from YALSA
