**Provincial Families of the Renaissance** James S. Grubb 2019-12-01 Distinguished by its clarity and eloquence, this is a superior work of historical writing and analysis that merits comparison with the best

monographs on the social history of Renaissance Italy."—Gene Brucker, University of California at Berkeley *Professional Pursuits* Catherine W. Zipf 2007 "Zipf focuses on five gifted women in various parts of the country. In San Diego, Hazel Wood Waterman parlayed her Arts and Crafts training into a career in architecture. Cincinnati's Mary Louise McLaughlin expanded on her interest in Arts and Crafts pottery by inventing new ceramic technology. New York's Candace Wheeler established four businesses that used Arts and Crafts production to help other women earn a living. In Syracuse, both Adelaide Alsop Robineau and Irene Sargent were responsible for disseminating Arts and Crafts-related information through the movement's publications.

Each woman's story is different, but each played an important part in the creation of professional opportunities for women in a male-dominated society."

**Ballet in the Cold War** Anne Searcy  
2020-10-07 "During the Cold War, the governments of the United States and the Soviet Union developed cultural exchange programs, in which they sent performing artists abroad in order to generate goodwill for their countries. Ballet companies were frequently called on to serve in these programs, particularly in the direct Soviet-American exchange. This book analyzes four of the early ballet exchange tours, demonstrating how this series of encounters changed both geopolitical relations and the history of dance. The ballet tours were enormously popular. Performances

functioned as an important symbolic meeting point for Soviet and American officials, creating goodwill and normalizing relations between the two countries in an era when nuclear conflict was a real threat. At the same time, Soviet and American audiences did not understand ballet in the same way. As American companies toured in the Soviet Union and vice-versa, audiences saw the performances through the lens of their own local aesthetics. Ballet in the Cold War introduces the concept of transliteration to understand this process, showing how much power viewers wielded in the exchange and explaining how the dynamics of the Cold War continue to shape ballet today"--

[The Tower of London in English Renaissance Drama](#) Kristen Deiter 2011-02-23 The Tower of London in English Renaissance Drama historicizes the Tower of London's evolving meanings in English culture alongside its representations in twenty-four English history plays, 1579-c.1634, by William Shakespeare, Christopher Marlowe and others. While Elizabeth I, James I, and Charles I fashioned the Tower as a showplace of royal authority, magnificence, and entertainment, many playwrights of the time revealed the Tower's instability as a royal symbol and represented it, instead, as an emblem

of opposition to the crown and as a bodily and spiritual icon of non-royal English identity.

To the Lighthouse Virginia Woolf 2021-06-24 Described by Virginia Woolf herself as 'easily the best of my books', and by her husband Leonard as a 'masterpiece', *To the Lighthouse*, first published in 1927, is one of the milestones of Modernism. Set on the Isle of Skye, over a decade spanning the First

World War, the narrative centres on the Ramsay family, and is framed by Mrs Ramsay's promise to take a trip to the lighthouse the next day – a promise which isn't to be fulfilled for a decade. Flowing from character to character and from year to year, the novel paints a moving portrait of love, loss and perception. Bearing all the hallmarks of Woolf's prose, with her delicate handling of the complexities of human relationships, *To the Lighthouse* has earned its reputation – frequently appearing in lists of the best novels of the twentieth century, it has lost not an iota of brilliance.

A Cultural History of Disability in the Renaissance Susan Anderson 2022-03-10  
In Renaissance humanism, difference was understood through a variety of paradigms that rendered particular kinds of bodies and minds disabled. *A Cultural History of Disability in the Renaissance*, covering the period from 1450 to 1650, explores evidence of the possibilities for disability that existed in the European Renaissance, observable in the literary and medicinal texts, and the family, corporate, and legal records discussed in the chapters of this volume. These chapters provide an

interdisciplinary overview of the configurations of bodies, minds and collectives that have left evidence of some of the ways that normativity and its challengers interacted in the Renaissance. An essential resource for researchers, scholars and students of history, literature, culture and education, *A Cultural History of Disability in the Renaissance* explores such themes and topics as: atypical bodies; mobility impairment; chronic pain and illness; blindness; deafness; speech; learning difficulties; and mental health.

**Global Trends 2040** National Intelligence Council 2021-03  
"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with

health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and

middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading. Renaissance Food from Rabelais to Shakespeare Dr Joan Fitzpatrick 2013-04-28 Providing a unique perspective on a fascinating aspect of early modern culture, this volume focuses on the role of food and diet as represented in the works of a range of European authors, including Shakespeare, from the late medieval period to the mid seventeenth century. The volume is divided into

several sections, the first of which is "Eating in Early Modern Europe"; contributors consider cultural formations and cultural contexts for early modern attitudes to food and diet, moving from the more general consideration of European and English manners to the particular consideration of historical attitudes toward specific foodstuffs. The second section is "Early Modern Cookbooks and Recipes," which takes readers into the kitchen and considers the development of the cultural artifact we now recognize as the cookbook, how early modern recipes might "work" today, and whether cookery books specifically aimed at women might have shaped domestic creativity. Part Three, "Food and Feeding in Early Modern Literature" offers analysis of the

engagement with food and feeding in key literary European and English texts from the early sixteenth to the early seventeenth century: François Rabelais's *Quart livre*, Shakespeare's plays, and seventeenth-century dramatic prologues. The essays included in this collection are international and interdisciplinary in their approach; they incorporate the perspectives of historians, cultural commentators, and literary critics who are leaders in the field of food and diet in early modern culture.

THE YEAR BY SMITHSONIAN MAGAZINE  
There is a renaissance blooming in  
the climate movement: leadership that  
is more characteristically feminine  
and more faithfully feminist, rooted  
in compassion, connection,  
creativity, and collaboration. While  
it’s clear that women and girls are  
vital voices and agents of change for  
this planet, they are too often  
missing from the proverbial table.  
More than a problem of bias, it’s a  
dynamic that sets us up for failure.

To change everything, we need  
everyone. All We Can Save illuminates  
the expertise and insights of dozens  
of diverse women leading on climate  
in the United States—scientists,  
journalists, farmers, lawyers,  
teachers, activists, innovators,  
wonks, and designers, across  
generations, geographies, and  
race—and aims to advance a more  
representative, nuanced, and  
solution-oriented public conversation  
on the climate crisis. These women  
offer a spectrum of ideas and  
insights for how we can rapidly,  
radically reshape society.  
Intermixing essays with poetry and  
art, this book is both a balm and a  
guide for knowing and holding what  
has been done to the world, while  
bolstering our resolve never to give  
up on one another or our collective

future. We must summon truth, courage, and solutions to turn away from the brink and toward life-giving possibility. **Art and the Relic Cult of St. Antoninus in Renaissance Florence** SallyJ. Cornelison 2017-07-05 Tracing the history of St. Antoninus' cult and burial from the time of his death in 1459 until his remains were moved to their final resting place in 1589,

this interdisciplinary study demonstrates that the saint's relic cult was a key element of Florence's sacred cityscape. The works of art created in his honor, as well as the rituals practiced at his fifteenth- and sixteenth-century places of burial, advertised Antoninus' saintly power and persona to the people who depended upon his intercessory abilities to negotiate life's challenges. Drawing on a rich variety of contemporary visual, literary, and archival sources, this volume explores the ways in which shifting political, familial, and ecclesiastical aims and agendas shaped the ways in which St. Antoninus' holiness was broadcast to those who visited his burial church. Author Sally Cornelison foregrounds the visual splendor of the St.

Antoninus Chapel, which was designed, built, and decorated by Medici court artist Giambologna and his collaborators between 1579 and 1591. Her research sheds new light on the artist, whose secular and mythological sculptures have received far more scholarly attention than his religious works. Cornelison draws on social and religious history, patronage and gender studies, and art historical and anthropological inquiries into the functions and meanings of images, relics, and ritual performance, to interpret how they activated St. Antoninus' burial sites and defined them in ways that held multivalent meanings for a broad audience of viewers and devotees. Among the objects for which she provides visual and contextual analyses are a banner from the

saint's first tomb, early printed and painted images, and the sculptures, frescoes, panel paintings, and embroidered textiles made for the present St. Antoninus Chapel.

Metamorphosis of a Death Symbol

Kathleen Cohen 1973-01-01 This book focuses upon the tomb with a transi image, which the author defines as 'a tomb with a representation of the deceased as a corpse, shown either nude or wrapped in a shroud', tombs that were peculiar to Northern Europe from the late fourteenth through the seventeenth centuries. Cohen challenges the modern view that the transi image was a mere memento mori for the living. Drawing upon 200 examples of tombs with, as well as without transi images, and upon poetry, church hymns, prayers, sermons, ceremonial texts, and wills,

she demonstrates that in the course of the 15th & 16th centuries the meaning of the transi evolved,

reflecting changes in religious, social and intellectual life during this period.
